Attorney Docket No. 05725.0533-00000

ABSTRACT

A method of applying pieces of material to objects includes providing a material supply strip and an applicator device capable of applying material from the supply strip to objects. The supply strip includes a backing having first and second opposing surfaces and pieces of material removably arranged on both of the first and second surfaces. The method also includes applying at least one piece of material from the first surfaces of the backing to at least one object with said at least one applicator device, and applying at least one piece of material from the second surface of the backing to at least one object with said at least one applicator device.
